My coaching philosophy is all about having you ‘get stuff done’!

I’m a very blunt, tell-it-like-it-is type of coach who will show you EXACTLY how to start, grow and market your business the right way from the start (or back up and fix what’s missing in your business if you’re already in business).

I have gained a wide and deep set of knowledge about all kinds of marketing and business-building strategies in my 23 years of experience working with small business owners.

I coach entrepreneurs on anything from: social media, online marketing, advertising, publicity, graphic and web design, copywriting and marketing messages, follow up, relationship building, sales conversations, to speaking and selling from the stage, developing information products and services such as ebooks, webinars, courses, high end coaching programs, memberships, masterminds, live events, becoming an author and more.

It’s all about leveraging your expertise into a CONSISTENTLY PROFITABLE sustainable business doing what you love.
